

Premium Lighting

LIGHT UP YOUR SENSES

The use of light and colour to promote a specific emotional response dates back to the Egyptians who built healing temples of light over four thousand years ago. Now you can create your ideal environment with low energy consumption LED chromatherapy lighting designed specifically for your spa. With 16 LED locations you can change your colour and change your mood with one touch and delight in the colours of the rainbow. Enjoy the glow of a beautiful sunrise, benefit from the colours of a soothing reflecting pool, or bask in the warm glow of a sunny afternoon.
